## ABOUT ME

Production Design Graduate,  
and a wildly passionate creative.

I am drawn to trends in film, design, and fashion. I am a diligent follower of pop culture as well, and would consider myself an expert on generational branding. I found an interest in Production Design and honed my skills in gathering reference photos for mood boards, architectural drafting, sketches, digital rendering, acquisition of materials, and hands on construction of sets. I have a strong sense of leadership and work ethic. I know how to get things done.
